

ARTIFACT COMMUNICATION

Students will store ACP artifacts in Career Cruising. The advantage of using this platform is that it allows students to access their ACP information wherever they have internet access and they will update this information from year-to-year. Students are expected to share this information with their counselor, advisory teacher, and parents. Parents are an important part of the ACP process. We recommend that parents have ongoing discussions with their child about their personal, academic, and post-secondary goals.

Here are some suggestions for parents:

- Become familiar with the information located under the College and Career Readiness webpage on the Marshfield School District website.
- Discuss what subjects your son or daughter would like to learn about and what experiences they would like to participate in to develop their ACP.
- Ask your child to share their personal statement, goals, and action plan.

In each grade level, students will work towards achieving different outcomes. These outcomes are differentiated by grade level. The ACP process is designed to build each year to support the development of each student. The artifacts generated by students in each grade level are outlined in the table on the following page.

GRADE	ARTIFACTS	
6th	<ul style="list-style-type: none"> • Career Cruising Activities • Middle School Tours 	<ul style="list-style-type: none"> • MHS Career Explorer • Middle School Counseling Presentation-Courses and Registration
