## **GRAHAM OLSON SCHOLARS**

The quest for knowledge, like the quest for the Holy Grail, is not only the pursuit of academic excellence but also thirst for understanding of self, others, cultures, and the physical and metaphysical realms of the world.

The male and female student who best exemplify this quest for enlightenment are not necessarily the student with the highest grades, or even the student taking the greatest number of honors or advanced placement courses. The students who best exemplify the quest for enlightenment are the students who demonstrate:

- Motivation and determination and commit themselves to the rigor of the course expectations.
- Diligence by completing work on time in appropriate format and being consistently prepared for class.
- Perception by synthesizing, analyzing and evaluating in discussion and writing.
- Willingness to take risks by positively approaching a variety of learning methods.
- Competence through application of a variety of learning methods.
- Relish for the challenge of the pedagogical endeavor.
- Integrity and self-discipline.
- Leadership skills, and compassionate peer monitoring, and diplomacy – coupled with enthusiasm in cooperative learning situations.
- Passion for learning.
- Humility and willingness to hear constructive criticism.
- Courage and perseverance by overcoming obstacles (disabilities, language barriers, inadequate resources).

The male and female students who best exemplify these qualities are students we recognize as the Graham Olson AP Scholars.

This year's recipients are:

Alejandro Mayagoitia and Tara Bhat
