

7/28/2020

Greetings Seniors, Parents, and Guardians:

By now we hope everyone has had an opportunity to view Marshfield High School's Class of 2020 graduation production. If you have not, here is the link to this download:

As alluded to in the May 20th letter, we indicated our reservation in holding any graduation event late into summer due to the uncertainties regarding the continued COVID - 19 concerns. We also stated we would keep the August 8th date open for some potential gathering, and if so, such an event would only involve speeches and a final determination on details when we are confident the information we have will allow us to safely do so. The most recent information from Wood County Health officials still does not recommend large public gatherings of this nature. The announcement last week by the WIAA regarding the later start for football, volleyball, and soccer, reaffirm this concern. We are aware some families have military commitments and others with conflicts regarding college orientations or moving for the fall semester.

With that said, we will not hold any event on August 8th. Again, we will provide each senior free of charge one copy of this program on DVD. Any senior who wants a copy of this DVD may stop in at the main office at Marshfield High School Monday through Friday from 7:30 a.m. until 3:00 p.m. Please note, due to electrical work here at Marshfield High School, the office will be closed on Friday, July 31st, beginning at noon.

We appreciate the support and understanding you have shown during this unprecedented time. We wish all members of the Class of 2020 the best. Have a great remainder to your summer.

Sincerely,

Michael J. Nicksic - Principal
